

MATERIAL SAFETY DATA SHEET

January 2014

Revision date 010114

1. IDENTIFICATION OF THE SUBSTANCE / PREPARATION AND THE COMPANY

Product Information

Trade name :	CHEMJET PHOSPHITE
Company :	Chrysalis Ceramics Ltd Carol Cottage Truggist Lane Berkswell Coventry CV7 7BX
Telephone :	+44 (0) 7815880039
Emergency contacts :	as above

2. COMPOSITION / INFORMATION ON INGREDIENTS

Information on ingredients

• AQUEOUS POTASSIUM PHOSPHITE SALTS	Mono-potassium phosphonate CAS No: 13977-65-6 Di-potassium phosphonate CAS 13495-26-7
Synonym	(in equal quantities) Potassium phosphonate

3. HAZARDS IDENTIFICATION

This is a non-volatile aqueous fertiliser product.
It can react with strong oxidising agents.
May cause irritation to eye, mouth and upper digestive tract.

4. FIRST AID MEASURES

Eye Contact .	Mild irritant to eyes. Rinse with plenty of water immediately
Skin contact	Seek medical advice if necessary. Mild irritant to skin. Wash off with plenty of water.
Ingestion	Do not induce vomiting. Drink plenty of water.

5. FIRE-FIGHTING MEASURES

The product is not combustible. Extinguishing media to be governed by other materials present in the surroundings.

6. ACCIDENTAL RELEASE MEASURES

Methods for cleaning up	Contain spilled liquid with sand or earth to prevent run-off or release to water courses. After cleaning, flush away traces with water.
--------------------------------	---

7. HANDLING AND STORAGE

Safe handling advice
Protection against fire and explosion
Storage

Take necessary cautions when lifting.
No special precautions required.
Store under ambient conditions and out of direct sunlight.
Ensure label on bottle remains intact and legible. Isolate from oxidising agents.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Components with workplace control parameters

Personal protective equipment

Respiratory protection	Not applicable
Hand protection	
Recommendation	Use suitable protective gloves
Glove material	Butyl-rubber, PVC, Natural rubber (NR), Polychloroprene with natural-latex liner.
Material thickness	0.5 mm
Break through time	> 480 min
Method	DIN EN 374
Glove material	Nitrile rubber, fluorinated rubber
Material thickness	0.35 - 0.4 mm
Break through time	> 480 min
Method	Source: KCL GmbH
Eye protection	Safety goggles.
Hygiene measures	Do not wear contaminated clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Form	Aqueous solution
Colour	Colourless none
Odour	

Safety data

pH	6.5 at 20°C
Thermal decomposition	Above 200°C
Flash Point	Non-combustible
Freezing point	Minus 22°C
Vapour pressure	Less than 20mm Hg at 20°
Ignition temperature	C not applicable
Density	1.35 g/cm ³ (20 °C)
Water solubility	Infinitely soluble in water

10. STABILITY AND REACTIVITY

Thermal decomposition	Above 200°C releases flammable hydrogen gas.
Hazardous reactions	Strong reducing agent. Reacts with oxidising agents.

11. TOXICOLOGICAL INFORMATION

Acute oral toxicity
Skin irritation (OECD 404)
Eye irritation (OECD 405)

LD50 rat: > 2,000 mg/kg
Non irritant (index 0)
Non irritant (max group score 2.7)

12. ECOLOGICAL INFORMATION

No specific data available. Considered by the US EPA to be GRAS (Generally Regarded As Safe). In the aqueous environment it is expected to oxidise to inorganic potash and phosphate, plant nutrients.

13. DISPOSAL CONSIDERATIONS

Product

With respect to local regulations, e.g. deposit in a suitable landfill site

A waste code in accordance with the European Waste Catalogue (EWC) may not be assigned to this product since it admits of a classification only when the consumer uses it for some purpose. In agreement with the waste code must be determined regional waste disposal authority or company.

14. TRANSPORT INFORMATION

Transport/further information

Not classified as dangerous for purpose of air, road, rail or sea transport regulations.

15. REGULATORY INFORMATION

Labelling according to EEC Directive 67/548/EEC.

Not subject to labelling provisions by Directive

National legislation

16. OTHER INFORMATION

Risk phrases

No R- or S- risk phrases required.

Further information

Keep out of reach of children.

Chemjet Phosphite is an aqueous fertiliser salt containing potassium phosphite intended solely for use as a plant nutrient, and should not be used for any other purpose.

This version replaces all previous versions.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
